METHODOLOGY

NC STATE

Queer and Trans People of Color

Twice a month on Tuesdays at 5:00 p.m.
Variable locations in Talley Student Union

Transgender is defined as a person whose gender identity doesn't match the sex they were assigned at birth

FINDINGS

Around 110 out of 4700 universities in US cover hormone replacement therapy

33.3% of transgender, genderqueer or intersex students concealed/modified their gender identity or gender expression when interacting with their campus health practitioner

POLICY RECOMMENDATIONS

- **Identify the accessibility of starting or continuing HRT use at each UNC System University**
- **Conduct a Campus Climate Survey focused on sexual orientation, gender identity, and gender expression at each UNC System institution**

CONCLUSION
